SUMMARY

Frontend developer with 4+ years of experience bridging design and functionality across React, Next.js, Vue.js, and Ruby on Rails. Builds responsive interfaces, scalable component systems, and reliable frontend architecture. Experienced with design token systems, i18n, Storybook, and AI-assisted development workflows.

EXPERIENCE

Frontend Developer Nov 2024 - Present

[HowNow](#) Full-time · Hybrid · Mumbai

- Building and migrating scalable React + TypeScript modules for a learning platform, with atomic design system components using semantic variants and design token integration.
- Developing the Guru feature — an AI-powered chat and streaming interface with dedicated i18n localization and Universal Guru workflows.
- Leading React migration efforts with a structured token system (spacing, border-radius, typography) and Storybook-documented component library.
- Shipping responsive UX improvements across desktop and mobile with accessibility and performance budgets.

Senior Software Developer Jul 2024 - Sep 2024

[Volga Infotech](#) Full-time · Remote · Mumbai

- Led frontend architecture decisions for client-facing web applications built on React.
- Integrated and consumed complex REST APIs with robust error handling and loading states.
- Mentored developers on reusable component patterns, profiling, and production-grade debugging.

Software Engineer Nov 2021 - Jul 2024

[Propellum Infotech](#) Full-time · Hybrid · Mumbai

- Developed client-facing applications across React and Rails codebases with strong ownership from feature design to deployment.
- Built responsive interfaces, dashboard flows, and high-fidelity UI interactions for data-heavy products.
- Contributed across the full SDLC, including requirements workshops, code reviews, CI/CD handoff, and release support.
